# FREE ROTATOR CUFF & SHOULDER PAIN EVALUATION

## Our Doctors of Physical Therapy will be discussing:

- How to find out what's causing your shoulder pain without having to get an X-ray or an MRI (yes ... I'll show you ways to test it yourself).
- How to correct the cause of your pain and speed up the healing process without relying on medications, injections, or surgery (one of the techniques I'll share takes only 3 minutes to do on your own every day ... patients can't believe how much difference it can make).
- How to prevent your shoulder from getting worse, and avoid the single biggest mistake shoulder pain sufferers make (unfortunately this is a mistake that a lot of people make that results in unnecessary surgery).

We are scheduling individual, one-on-one consultations during the month of October for 10 lucky people.

**We are taking all CDC and WHO Covid-19 Precautions!**
